

COVID-19 Impact and Recovery Report: Travel-Related Measures

Updated: November 12, 2020

This document provides an evergreen assessment of the situation in Canada. It has the following sections:

- Travel-Related Measures:** A summary of the travel and tourism-related measures in place in each province and territory. A map outlining the current travel restrictions and self-isolation requirements is available on Destination Canada's website: <https://caen-keepexploring.canada.travel/canada-nice#canadamap>
- Methodological Notes:** An explanation of the methodologies in the different sections and relevant sources.

1. TRAVEL-RELATED MEASURES

In addition to a federal government requirement mandating 14-day self-isolation for those who are eligible to enter Canada¹, individual provinces and territories have implemented measures on travel between provinces and territories. The below table outlines self-isolation requirements for domestic travellers entering into each province or territory, as well as restrictions on travel across provincial and territorial borders. Tracking these measures is challenging given the fluid nature of COVID-19. This information was collected by provincial and territorial tourism marketing authorities and relevant tourism departments and current as of November 12, 2020.

Travel Measures

	Traveller self-isolation required?	Travel restrictions?
British Columbia^{2, 3} (BC)	● No self-isolation for domestic travellers entering BC	✗ All non-resident travel to Haida Gwaii is restricted; otherwise, no travel restrictions for domestic travellers entering BC. As of November 7, travel into and out of the Lower Mainland and Fraser Valley should be limited to essential travel only; this limitation does not restrict travel and flights to/from BC.
Alberta⁴ (AB)	● No self-isolation for domestic travellers entering AB. Starting November 2, eligible international travellers returning to Alberta at the Calgary International Airport or Coutts land border crossing can participate in a pilot program that will allow them to quarantine for less time (approximately 48 hours) provided they test negative for COVID-19 and if they commit to following specific public health and testing measures.	● No travel restrictions for domestic travellers entering AB
